

### Features

- ◆ Compact AC/DC power supply modules
- ◆ Fully encapsulated plastic package
- ◆ Universal input 85–264 VAC, 50/60 Hz
- ◆ High efficiency
- ◆ Low ripple and noise
- ◆ Overload protection
- ◆ EMI meets EN 55022, class B and FCC, level B
- ◆ 3 package styles available:
  - for PCB Mount with solder pins
  - for chassis mount with FASTON-tabs
  - for chassis mount with screw terminals
- ◆ 3-year product warranty

The TMS series switching power supplies offers high power density in a low profile package. This makes these modules the best choice for all space critical applications. A further feature is the easy installation provided by flexible connection systems (solderpins, terminalblock, FASTON tabs).

EMC specifications and compliance with international safety standards qualify the product for worldwide use. SMD construction and industrial quality grade components guarantee a high reliability of these power modules.

### Models
