## **FOR IMMEDIATE RELEASE**

### **POWER SOURCES UNLIMITED FEATURES REL185 FAMILY OF SWITCHING POWER SUPPLIES**

Power Sources Unlimited, a technical distributor of power supplies and power related products, announces the Integrated Power Devices REL185 Series of ac/dc switching power supplies which are designed to meet the performance and 1U footprint needs of medical, communications, instrumentation, and industrial control applications.

The REL185 Series accepts a universal 85-264VAC input and provides 185W of output power with single, dual, triple and quad output versions. A compact and low profile 4.2"x7.0"x1.5" package fits into 1U applications. The units are available either as open frame or with an optional chassis and cover. Custom modifications are possible at minimal costs.

These power factor corrected units meet harmonic current standard EN61000-3-2.

Worldwide safety certification has been done to both EN60950 ITE and EN60601-1-2

Medical standards. The units are highly efficient and offer features such as EN55011/22

Class B emissions compliance, remote sensing, overvoltage protection and a power fail signal.

Pricing is from \$114.00 at 100 piece quantities. Prototype quantities are available from stock at Power Sources Unlimited.

For sales or applications inquiries, please contact Denise Mancuso, Inside Sales at Power Sources Unlimited, [www.psui.com](http://www.psui.com), 800-966-7784, [denise@psui.com](mailto:denise@psui.com).
