FOR IMMEDIATE RELEASE

POWER SOURCES UNLIMITED FEATURES NEW CINCON 40W AND 60W AC/DC SWITCHERS

Power Sources Unlimited, a technical distributor of power supplies and power related products, announces the Cincon CFM40 and CFM60 Series' of ac/dc switching power supplies which are ideal for communications, instrumentation, IT and process control applications.

The CFM40 Series is a 40W product with single output versions from 3.3VDC to 48VDC and has recently been expanded to include dual and triple output models. The CFM60 Series is a 60W product with single output models ranging from 3.3VDC to 48VDC.

Both the CFM40 and CFM60 Series feature a universal AC input and an incredibly small footprint, measuring only 2.00" x 4.00" x 1.20". Efficiency of the single output models is from 74% to 88%, depending upon the model, so minimal excess heat is generated.

The power supplies are safety approved to UL, CUL and TUV standards and bear the CE Mark.

The single output models deliver full power from 0C to 50C, and linearly derate to 50% power at 70C. Short-circuit and overvoltage protection is built in.

Pricing for OEM quantities is \$17 for the CFM40 Series and \$18 for the CFM60 Series.

Prototype quantities are available from stock at Power Sources Unlimited.

For sales or applications inquiries, please contact Denise Mancuso, Inside Sales at Power Sources Unlimited, www.psui.com, 800-966-7784, denise@psui.com.
