

FOR IMMEDIATE RELEASE

**THOUSANDS OF AC/DC POWER SUPPLIES AND DC/DC CONVERTERS
WITH MEDICAL SAFETY APPROVALS**

May 5, 2008 - Wrentham, MA Power Sources Unlimited unveils a new website section devoted to showcasing thousands of AC/DC power supplies and DC/DC converters with medical safety approvals and RoHS compliance.

Offerings include open frame / enclosed AC/DC power supplies with power ratings from 25W to 650W, featuring single through quad output models, with high power densities.

Desktop or wall mount AC/DC power supplies with single, dual and triple output models are shown, featuring an industry leading power rating for a medical desktop supply of 150W.

Encapsulated AC/DC models, including our new 50W TMT50 Series are included, followed by our medically approved DC/DC converter products, which range in power from 2W to 3W.

All products are RoHS compliant and have worldwide safety approvals to UL60950-1 and TUV EN60950-1 standards.

Full specifications and convenient on-line product ordering are available on-line at www.psui.com/medical-power-supplies.htm or contact our Sales/Technical Group at sales@psui.com or (508) 384-1419
