FOR IMMEDIATE RELEASE

COMPACT 1U HIGH 400W AC/DC POWER SUPPLIES

Wrentham, MA Power Sources Unlimited announces the NXT-400 Series of compact, (3.9" x 8" x 1.5") ac/dc power supplies which pack 400W of power into an industry leading 8.5W/cubic inch power density, fitting easily into 1U high OEM applications or any application where space is critical.

The NXT-400 Series is available in eight models providing adjustable, single outputs from 2.5Vdc to 48Vdc. Standard features include 85% efficiency (typical), 0.5% line and load regulation,

operating temperatures up to +70°C with airflow and a power factor corrected, universal 90-264Vac input. Options include remote inhibit/enable, cover and chassis, and isolated 5Vdc standby power.

Worldwide safety compliance to both EN60101-1 (Medical) and EN60950-1 (ITE) standards, RoHS compliance, a 2-year warranty and a high MTBF make the NXT-400 Series ideal for numerous applications. Units are in full production with deliveries from stock to 6-8 weeks and are competitively priced, starting at only \$277.63 for OEM quantities

Download full specifications and procure parts on-line at <http://www.psui.com>. For sales or applications inquiries, please contact Power Sources Unlimited, toll free at 800-966-PSUI (7784) (USA only) or 508-384-1419 or email sales@psui.com.
