## FOR IMMEDIATE RELEASE

### DIN RAIL SUPPLIES FEATURE LOW PROFILE PACKAGE

**Wrentham, MA** Power Sources Unlimited announces the Tracopower TBL Series of low profile DIN Rail power supplies. Economical, lightweight, and packaged in a low profile case, the TBL Series are idea for flat control panels typically found in building automation applications.

Power ratings for the TBL Series range from 15W to 150W, with single output voltages of 5VDC, 12VDC or 24VDC. Output voltages are adjustable to compensate for potentially long cable runs. The input voltage range is 85-264VAC.

Standard features of the TBL Series are -25C to +65C, convection cooled, ambient temperature operation, short circuit protection, overload protection, and a DC-OK indicator. The power supplies are safety Class II products, with approvals to UL1310, UL508, EN50178, EN60204, EN61558-2-8 and CSA C22.2 No. 60950-1. A CB Report to EN60950-1 is completed and the units meet EN55022 Class B EMI. All Tracopower products are backed by a 3-year warranty.

Pricing is from \$36.50 each at 100 pieces, with delivery from stock to six weeks. Download full specifications and procure parts on-line at <http://www.psui.com>. For sales or technical inquiries, please contact Power Sources Unlimited, toll free at 800-966-7784 or email [sales@psui.com](mailto:sales@psui.com).
